THE TWO DAY AUCTION ENDS ON JANUARY 8TH & 9TH AND INCLUDES AMONGST OTHERS THE BARCELONA DREAM TEAM & 1. (INTER)NATIONAL WINNERS. A ONCE IN A LIFETIME OPPORTUNITY.

AUCTION STARTS: MONDAY 26TH DECEMBER 2022 AT 5PM CEST

AUCTION ENDS: SUNDAY 8TH, MONDAY 9TH JANUARY 2023 FROM 11AM CEST

The auction will be published on PIPA in advance, on Sunday 25th of December at 5pm, to give interested fanciers the chance to browse through and study the auction lots beforehand. Bidding will not yet be possible at that time. Bidding starts on Monday 26th of December at 5pm, which is the official start of the auction.

■ HOW TO PLACE BIDS AND FOLLOW THE AUCTION?

You can of course follow the auction online on PIPA (www.pipa.be). Visit the PIPA website on your PC, your mobile phone or your tablet and click 'auctions'. Keep in mind you have to be logged in on the website in order to bid directly. You need to register first if you do not have an account yet.

■ AUCTION CLOSING TIME

The auction closes across two days:

DAY 1: SUNDAY 8TH OF JANUARY 2023:

End of Part 1 at 11am. Every 30 minutes another part of the auction ends: Part 2 at 11:30am, Part 3 at 12am, and so on. If someone bids on a pigeon in the final five minutes before closing time, the closing time will be extended by another five minutes, until there are no more bids placed

for five minutes. This means the auction is officially over. The closing time will be clearly indicated for each pigeon. The same scenario applies for day 2 of the auction:

DAY 2: MONDAY 9TH OF JANUARY 2023:

End of Part 1 at 11am. The following parts will close every 30 minutes until the final bids have been placed, after which the auction closes for good.

■ WHICH PIGEONS WILL BE SOLD IN WHICH PART?

The auction will include an overview of the most important pairings. To make things easier for you, the parents and their youngsters that are sold in auction will come with a sale number. This sale number can be found online during the auction in both the overview of the pairings and in the extensive presentations.

■ ARE YOU INTERESTED IN BUYING ONE PARTICULAR BIRD?

Write down its sale number. For instance: sale number 2.3.10: this means the pigeon is sold on the second day (9th of January), in Part 3, sale 10.

■ PIGEONS IN AUCTION

All the pigeons to be sold in auction were still fertile in 2022. The pigeons from 2015 or older will be given away along with a young bird, usually with their direct son or daughter. However, keep in mind Batenburg-Van De Merwe or PIPA cannot guarantee for 100% that these pigeons will still be fertile in the future, which is why they are given away for free with one of their descendants (youngsters). The risk of a pigeon no longer being fertile is entirely the buyer's responsibility.

Important: if there is clear doubt as to whether a pigeon will still be fertile in the future, that pigeon will not be included in this auction.

▲ Hugo and his father Bas

Dear pigeon friend,

My friendship with Hugo dates back to our first meeting, about 15 years ago. Since 2013, our friendship became even closer. That was the year the Batenburg and Gyselbrecht family bought 'New Laureaat' together. This was the ideal pigeon for Hugo to realise his dream, creating the strongest Barcelona colony in the world. For me, the emotional sentiment of this pigeon transfer was of great importance, as 'New Laureaat' was bred from a hen of my father, descending from 'Laureaat Barcelona'. To be able to buy a descendant who realised the same extraordinary performance, 18 years later, really meant a lot to me. It brought me back to PIPA's roots; the motivation to create this pigeon platform was largely based on the performance of 'Laureaat Barcelona', a moment which filled my heart with pigeon-DNA for good.

In no way does the auction of the Batenburg-Van De Merwe colony mean the cooperation between our 2 families is brought to a halt. It certainly doesn't affect our friendship negatively; that bond is indestructible. In this auction, pigeons will be offered online which have never been offered, it is unseen that such a magnitude of class comes together in one auction. This impressive family of winners at the highest level – formed by us using well thought out breeding strategies – will be spread over the world even more than before.

For some years now, Hugo has thought about auctioning his breeding and racing team. He worked very hard to build this unique collection and he treasures it with all his heart, together with his family. However, the pressure of so much class representing a fortune is very high.

There is always the fear of burglary or other misfortune. I am very sure that – after the sale – Hugo shall continue his career with the same motivation as ever, eager to win the toughest of battles and bring pigeon fanciers all over the world to a higher level; and surely, he shall succeed again.

At PIPA, we organised many impressive and record-breaking auctions and our total team puts in their heart and soul for every auction! Still this auction is very special to us, for PIPA and for the Gyselbrecht family. In conclusion, I would like to thank Hugo personally for the friendship we built over the years. Being able to call you my friend truly means a lot to me; I can always rely on you, in good times and in bad.

Enjoy this catalogue!
Best regards,

Nikolaas Gyselbrecht
CEO & Founder PIPA

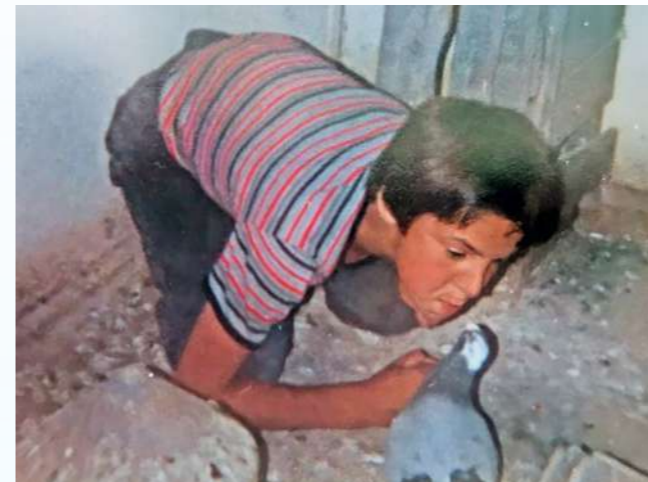

Batenburg- VAN DE MERWE

Quality and drive brought Batenburg decades of International fame

Sometimes history repeats itself ... in 1995 the super champions Bas and Hugo Batenburg sold their total racing and breeding team – the famous ‘Witbuik’ dynasty. The quality impulse for the buyers was enormous, for decades its offspring dominated marathon racing. And now, 27 years later, again it is Batenburg who brings the strongest marathon collection ever to auction on PIPA and for sure; new owners shall benefit from their investments for many years to come.

▲ Young Hugo

It has always been the main goal of Hugo Batenburg – breeding pigeons that can make a difference in International pigeon racing. Supplying fanciers all over the world with the highest quality of pigeons and bringing them to new levels; that is what makes Hugo proud. “I am incredibly pleased with the breeding team I was able to create with the help of Nikolaas Gyselbrecht and other close pigeon friends like Jelle Jellema, Ad Fortuin and many others. We reached our goal; keeping International Barcelona winners in Europe and combining them with other National aces or winners to form a super team. However, time has come for the next step and new goals in the pigeon career of my family and myself ... And giving fanciers worldwide the opportunity to acquire the diamonds we collected, bred and raced.”

■ A TOUGH CHOICE

There were key moments for Hugo Batenburg which defined his pigeon sport career. Or more specifically,

the start of his career. Hugo’s father, Bas Batenburg, owned a horticulture company and was also a very successful pigeon fancier, in that order. Since 1979, the then 12 year-old Hugo helped his father out on the lofts. Within a nick of time he took care of the whole colony. Business was tough those days and Bas told his son, “If we want to continue keeping pigeons, they must not cost us any money. If you can’t realise that within a few years, I am afraid we cannot afford to keep them any longer.”

This is something he didn’t have to tell Hugo twice and as a teenager in 1979 he directly won the provincial race from St. Dizier. Hugo most enjoyed the heavy marathon races and he was therefore thrilled he got ‘De Barcelona-duivin’ of his grandfather Jo Versendaal, a cross between Bakker Barendrecht x Lazeroms – legendary names in the history of Dutch pigeon sport based on Jan Aarden pigeons. Like the name suggests, ‘De Barcelona-duivin’ had won several top prizes on Barcelona. Hugo paired her to ‘The 953’, winner of 11 prize cards on marathon races and the best cock at Batenburg & Son.

This pair was not very productive, but did breed the NL81-1533120, a late youngster. On his marathon debut as a 2 years old, he won 14. Nat. St. Vincent 16,629 b. and on 9 consecutive marathon races he was the first pigeon to arrive at Bas and Hugo Batenburg their lofts. Thanks to his white belly he was named ‘De Witbuik’ and became a phenomenon in The Netherlands.

CREATING A BARCELONA DREAM TEAM

■ (May 2012)

- "Hello Nikolaas, it's Hugo here. I want to bring extra quality to my breeding loft. Preferably children of International Barcelona winners. What would you suggest?"

- "I understand your question Hugo, Barcelona winners became base breeders for many colonies. However, it's going to be hard to meet your request; all recent winners were sold to Japan, China and Taiwan."

- "So all these extra quality pigeons leave Europe? That is disappointing."

- "It breaks my heart too Hugo, Barcelona is the number 1 race for me and its winners the best pigeons. Maybe we should meet soon and speak about options to keep the winners in Europe; there must be a way."

Two months later, Hugo Batenburg and Nikolaas Gyselbrecht together visited Antoon Schults and bought NL09-1244606 'New Witbuik' from him. A strong cock that had just won 1. National Barcelona in The Netherlands and reminded Hugo a lot of his legend 'De Witbuik', one of the best marathon breeders that ever lived in The Netherlands. Beautifully built and from the old Jan Aarden bloodlines. It was also the beginning of Hugo and Nikolaas' mutual dream to create a Barcelona Dream Team. Big investments were done to bring in the winners, year after year:

- 1. Int. Barcelona 2013; 'New Laureaat'
- 1. Int. Barcelona 2015; 'The Special One'
- 1. Int. Barcelona 2017; 'Sumerian Fighter'
- 1. Int. Barcelona 2018; 'Lloyd'
- 1. Int. Barcelona 2019; 'Jef'
- 1. Int. Barcelona 2020; 'Queen Of The Night'

With the winner of the 2014 edition, Jelle Jellema with 'Kleine Jade', a co-breeding project was started and a close friendship grew. And so, 7 winners of 1. Int. Barcelona came to breed at the Batenburg-Van De Merwe lofts. No wonder their descendants had such an enormous impact on International pigeon racing!

For pigeon-broker Jan Hermans in the late Eighties, it was reason to auction a group of Batenburg youngsters from this top class family, with great success. Also, National and International acebirds carried the 'Witbuik' bloodlines. These were undoubtedly the best bloodlines in Europe during the Nineties and Zeroes for International marathon racing.

■ Batenburg x Van De Merwe

In the meantime, Hugo had not only developed as successful racer and breeder of pigeons, he also showed qualities as Don Juan. The beautiful Anita Van De Merwe – daughter of famous pigeon fancier Piet Van De Merwe – fell for the charms of Hugo and in 1996 they moved to their current house at Boomdijk 41 in Klaaswaal. This also meant a new start in pigeon racing under the name Batenburg-Van De Merwe and a farewell to Batenburg and Son ... and what a farewell it was.

All the racers and breeders of Bas and Hugo Batenburg were sold in auction, just a selection of youngsters from the best breeders moved with Hugo to the new address. The auction was a huge success, where the phenomenal 'Witbuik' family moved to ambitious fanciers for large sums of money, spectacular for those days. For many years, International top references from this auction came in; for Hugo and Anita it meant a fresh new start.

The glorious 'Witbuik' base was the very best marathon family of its generation; nonetheless, Hugo never stopped his quest to enrich his colony. Like the '500' lines of father-in-law Piet Van De Merwe, but more and more Hugo searched for winners. He managed to purchase several 1. National winners to cross to his super base

▲ Anita Van De Merwe - daughter of famous pigeon fancier Piet Van De Merwe

and slowly built a new family of top pigeons. With patience and care – in this period sons Jort and Robin were born – the Batenburg-Van De Merwe colony got its shape and year after year performances got better.

A bit over 10 years after the fresh new start, Hugo Batenburg once again reached the top of International pigeon racing. He realised the magical double 1. Western-European Super Marathon 2 years in a row! At that time there was no better marathon colony;

■ SUPER PERFORMER ... EXQUISITE BREEDER

The sky was the limit for Batenburg-Van De Merwe in this era. As if it was not enough, they won 1. National Cahors in 2011; another dream came true. What more could a pigeon fancier wish for? Hugo Batenburg was convinced he could create the most impressive marathon breeding colony in the world. Even though Hugo loves racing pigeons, above all, he is a gifted breeder.

▲ Hugo and Robin

Breeding the 'ideal modern marathon pigeon' became his newest goal in life and for that, some work had to be done. The stars from the ultimate classic, Barcelona, had to become his new base breeders.

In the past, the 1. International Barcelona winners always became special breeders; however since 1996 they all moved to Asia. Hugo found a kindred spirit in Nikolaas Gyselbrecht from PIPA.

He experienced a 1. International Barcelona with 'Laureaat Barcelona' in 1995 at his father and ever since, this particular race has been on his mind. Together they first managed to purchase 1. Nat. Barcelona 2012 winner 'New Witbuik' and in 2013, 2015, 2017, 2018, 2019 and 2020 all the 1. International Barcelona winners went to the Batenburg-Van De Merwe breeding lofts.

Of all these winners, the first in line is also the most special one; 'New Laureaat'. This is because of the emotional value (he descends from 'Laureaat Barcelona' Gyselbrecht), but also because of the huge impact he had on pigeon racing, all over the world. 'Witbuik' was a phenomenon in the Batenburg & Son era ... for Batenburg-Van De Merwe 'New Laureaat' surpassed his status as the best marathon breeder that ever lived.

The first to experience the great influence of the new acquisitions was of course Batenburg-Van De Merwe themselves. The new strategy started in 2013, with the focus on breeding and only a few races per season to test the racing team. The new products certainly showed their class; with breath-taking series of National top prizes, Hugo and his family kept on listing impressive performances. Resulting naturally in a bunch of highlights, including a/o 1. PIPA IATP overall Ranking in 2018 ... 1. & 6. National acebird ZLU racing WHZB 2018 ... 1. National & 1. European ace extr. LD 2 races PIPA Ranking 2022 ... etc., etc.

And now, at the end of a super season in 2022, the total Batenburg-Van De Merwe racing and breeding team shall be sold on PIPA. Hugo: "We spilled blood, sweat and tears to create this unique colony which we are so proud of. However, the continuous fear of thieves or illnesses like the avian influenza combined with pressure on us to home pigeons of so much class, asks for a temporary time-out, recharge the battery and come back with Anita, Jort and Robin as a family in pigeon racing ... just like in 1995 a new chapter in our pigeon career."

From December 26th 2022 until January 8th and 9th 2023, numerous 1. International winners, 1. National winners, 1. (Inter)national aces, super breeders and products of the breeding strategy with DNA of legendary pigeons combined shall be auctioned. Pigeons responsible for piles of references, mostly under the most heavy circumstances. In current International racing, offspring of the Batenburg-Van De Merwe colony are dominant when it comes to the top positions. Never before was such a high quality marathon colony sold - the impact on the pigeon world shall be enormous!

Breeding philosophy, COMBINING CHARACTERS

Purchasing 1. International Barcelona winners and other impressive racers was a goal on itself, creating the ideal modern marathon pigeon was another. Hugo Batenburg and Nikolaas Gyselbrecht spent many hours discussing how to form the best pairs and concluded that the key to their goal was combining the different characters of winners.

Hugo explains: "For us the 1. International Barcelona winners had to form the foundation of the colony ... but naturally almost every year the circumstances are different. Where 'New Laureaat' won a very hard edition using his experience and great strength ... 'Kleine Jade' of Jellema won at the biggest distance (1259 km) and probably crossed the night with enormous perseverance. 'Special One' was the only pigeon clocked on day one early in the evening with an impressive lead ... 'Sumerian Fighter' showed high vitality winning at the age of 7 with a velocity of just 882 mpm ... etc., etc. We tried to combine all these different qualities in the pigeons we bred."

Nikolaas: "Therefore, co-breeding with phenomenal pigeons was of importance ... naturally, with all the

cracks of Jelle Jellema, the strongest racer on International races over the last years with pigeons known for their enormous drive ... but also with English superstars from Mark Gilbert and Geoff & Catharine Cooper - whose pigeons always have to cross the Channel. Co-breeding with Etienne Meirlaen was just as important, as he is famous for his top performances, even when circumstances are in his disadvantage. The chance to bring all these qualities together, makes the products Hugo bred so very unique."

A ONCE IN A LIFETIME OPPORTUNITY

"This year a real crack will win. A clear blue sky and hot weather; no doubt the winner needs to be special." It is July 4th, liberation day of Barcelona 2013. Nikolaas Gyselbrecht and Hugo Batenburg had decided this was the moment to fulfil their dream; purchasing the 1. International Barcelona winner. The savings were collected and father Carlo Gyselbrecht was urged to negotiate with the winner.

"It must have been about noon when Carlo called and told he was on his way to Luc Wiels, his close friend who was probably going to win the race. Directly my thoughts

jumped to a moment a few weeks earlier when Luc was in Klaaswaal and told me about a super cock he had. Chinese investors had been asking about him, but Luc said 'Sorry, he goes to Barcelona one more time'. "Carlo", I said, "is it that super cock of Luc?" I heard the emotion in Carlo's voice when he confirmed and said 'I bred the mother, a granddaughter to 'Laureaat Barcelona'." Words can't describe how special it was, that exactly this 1. Int. Barcelona 1995 winner of the Gyselbrecht family was the last winner not to move to the Far East.

"We knew we had to purchase this pigeon and it became a stressful afternoon. In the meantime, we won 6. & 21. Nat. Barcelona on our own lofts, but it was pretty hard to enjoy these arrivals with an upcoming transfer on our minds. First, we had to wait for the official result and then the bidding began. All the famous agents were there for their Chinese customers

▲ Hugo Batenburg and Thomas Gyselbrecht are very happy with the transfer of 'New Laureaat' from Luc Wiels

and at one point I thought; it's getting out of hand, this cock is getting too expensive. However, Anita looked me in the eye and said: 'this is your dream Hugo. This is a once in a lifetime opportunity; take it.' In the end, the Batenburg and Gyselbrecht family placed the winning bid.

It was in the late evening that Hugo first handled 'New Laureaat'. He was very impressed, he could not believe the cock was in such great shape shortly after winning one of the hardest Barcelona editions of the last 20 years. Great muscles, great vitality, and very soft plume. BE08-2222675 moved to Klaaswaal to become the new base breeder. The start of probably the most successful chapter in marathon breeding history!

New Laureaat'

IS THE BEST CURRENT LONG DISTANCE BREEDER IN THE WORLD

Nikolaas Gyselbrecht: "For me, the most special thing about 'New Laureaat' is his enormous breeding value. I am quite sure no other pigeon in the world left a greater mark on pigeon sport, regarding (Inter)National races, but also One Loft Races worldwide. Thanks to him, Hugo and I reached our goal; really contributing something special to International pigeon sport."

FROM 'BLUE ACE 2018' TO 'SPECIAL ONE II'; COME FULL CIRCLE

1. & 6. NATIONAL ACEBIRD ZLU WHZB 2018

In one of the hardest seasons of the last decade, the supreme Batenburg-Van De Merwe colony excelled winning the titles 1. & 6. National acebird ZLU WHZB 2018. To win this title, a marathon pigeon has to win 2 top prizes, not an easy task in the 2018 season with headwinds and hot weather during the majority of the races. Winning the 1. National acebird is a confirmation of a top breeding strategy and a dream come true for Hugo; realised in 2018!

The 1. National acebird is NL16-1509101 'Blue Ace 2018'
2. Nat. St. Vincent 997 km 2,570 b. 2018 (996 mpm)

1. EUROPEAN & 1. NAT. ACEBIRD PIPA RANKING 2022

On the last race of the current Batenburg-Van De Merwe era, NL20-1479929 'Special One II' put the crown on Hugo's work! On 2 occasions he arrived as first pigeon in the evening of liberation day ... and the way how was very impressive! Jort: "After such a distance he always arrived with a sensational last sprint, it was a true spectacle seeing him arrive! What a super character! Him winning this title makes a fantastic end to this chapter!"

'Special One II' won 2x National top results; first on the race from Pau (June 27th), in a weekend with bad weather, the race being postponed 3 days and liberation point changed to Bordeaux. The second was from Marseille on July 24th, the traditional heavy classic. It brought the titles 1. European acebird extr. long dist. 2 races PIPA Ranking 2022 and 1. Nat. acebird extr. long dist. 2 races PIPA Ranking 2022

FRIENDS FOR LIFE DOMINATING ON PERPIGNAN 2022

The 2022 edition of Perpignan was a real tough one! Postponed on day one because of thunder in France and liberated Saturday August 6th with a clear blue sky and a light head wind blowing. Experts knew; in these circumstances the iron men of marathon racing shall make the difference. Hugo Batenburg and satellite loft Ad Fortuin knew they had potential winners in the race; that it turned out to become a true gala performance was beyond their wildest dreams!

On day one, only some pigeons were clocked in the evening in France, over 200 km shorter distance ... so Dutch fanciers expected to need some more patience.

Then, when there wasn't a single pigeon clocked in Belgium, Ad Fortuin and Hugo Batenburg both clocked a pigeon shortly after each other ... 1. & 2. National with a lead of almost 2 hours on number 3 National; also clocked by Ad Fortuin! On this ultimate battle, the Batenburg-Van De Merwe pigeons dominated like never before, winning:

Ad Fortuin: 1-3-12-17-29-59-61-91-112-etc.
Nat. Perpignan ZLU 3,805 b.

Batenburg-Van De Merwe: 2-10-19-23-34-45-47-58-65-88-93-107-113-130-etc. Nat. Perpignan ZLU 3,805 b.

THE BATENBURG-JELLEMA CONNECTION; FRIENDS FOR LIFE

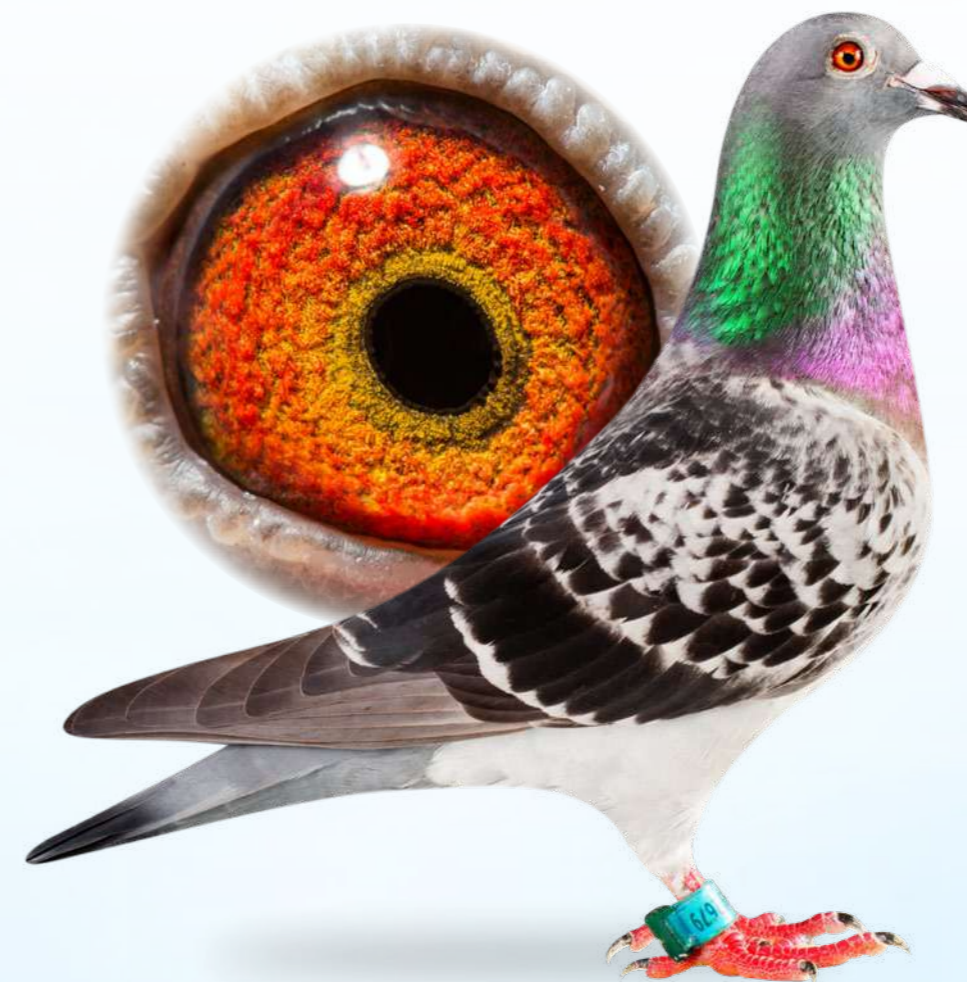

Creating unique pairings of Barcelona stars; with that idea Hugo Batenburg and Jelle Jellema sat down in 2014 to share their thoughts. Jelle had just won 1. Int. Barcelona with 'Kleine Jade' and Hugo was forming a Barcelona top team with 'New Laureaat', the 2013 winner, as eye-catcher. Almost 8 years later, both men speak about all matters of pigeon sport on almost a daily base. As sparring-partners with one mutual goal; developing their pigeon stock and performances.

When you are able to combine Barcelona stars such as 'New Laureaat' (1. Int.), 'Kleine Jade' (1. Int.), 'Special One' (1. Int.), 'Sumerian Fighter' (1. Int.), 'Jef' (1. Int.), 'Saar' (2. Nat.) and 'Silvie' (3. Int.), a huge step is made towards a marathon pigeon that can really make a difference. "And that is what we are looking for, 24/7," says Jelle. "Hugo especially as - for me - the best connoisseur in breeding pigeons I ever met. I rather focus on racing them; a combination that helps us both a lot."

The first co-pairing was 'New Laureaat' with 'Kleine Jade', for Hugo this is a ideal pair. Not only because they had won the International Barcelona editions of 2013 and 2014. "These two really have complementary qualities. 'New Laureaat' showed great strengths winning a battle where only the ultimate warriors could excel ... and 'Kleine Jade' is an incredibly smart pigeon, she registrates all that happens around her.

Besides she crossed over 1200 km with enormous perseverance, even combatting darkness. In the end it is always extremely satisfying when a plan comes together; the pairing 'New Laureaat' x 'Kleine Jade' bred generations of National stars."

In past years, super valuable Jelle Jellema breeders such as 'Kleine Jade', 'Olympic Romee' and 'Silvie' were almost used fulltime for co-breeding with Batenburg-Van De Merwe. "In both our performances this has really had a huge impact," Jelle proudly says. "I never want to sell the birds that brought me the most joy, winning big races. During co-breeding with the icons at Hugo, they get all the opportunities to pass on their genes. Combining the best racers in Western-Europe, keeps our sport at the highest level in the world. I am convinced that this is also the biggest reason for the many references with these pigeons."

Super successes IN ONE LOFT RACING!

One of the pillars in the breeding philosophy at Batenburg-Van De Merwe, is creating pigeons that can excel under the toughest of circumstances, anywhere in the world. What could be a better indicator for this goal than the performances on International One Loft races? Since a few years, Batenburg-Van De Merwe enter a carefully selected group of pigeons to these races and won:

- Victoria Falls World Challenge Pigeon Race

THE FRENCH SURPRISE SURPASSING ALL EXPECTATIONS

In the middle of a European heat wave, the 2015 edition of Barcelona was destined to be a very hard edition. However, despite the high temperature, there was a slight sideways tailwind and when the first pigeon was clocked at 20.57 in France at a distance of 917 km with averaging 1150 mpm, many fanciers in France, Germany, Belgium and The Netherlands stared at the sky at the edge of their seat ... in vain! The only pigeon returning on day 1 was FR12-034553, entered by Cuffel & Sons.

On the very early Saturday-morning, the International victory of this dark chequer cock was a fact and he left legends as Noel Peiren (2. International, speed 983 mpm) and Cor De Heijde (4. International,

speed 964 mpm) behind him. "That must be a special one," Hugo said to Thomas Gyselbrecht, who was on his way to Cuffel in an attempt to purchase the winner. Thomas' first impression about the pigeon was very positive and after 'New Laureaat', a second 1. International Barcelona winner moved to Batenburg-Van De Merwe.

Hugo remembers the arrival of 'The Special One' in Klaaswaal very well. "We did not know what to expect, this pigeon raced 'only' 917 km, normally International winners make many more kilometres. Jelle Jellema was here and when we took him out of the basket and handled him, we looked at each other and both our looks said: WOW. We were extremely impressed by its appearance and paired him up to our best hens in the years after."

In the first years, not many fanciers informed about children of 'The Special One', so Hugo raced some of his offspring ... and directly they showed their class, winning 2. Int. Narbonne 2017 and 3. Nat. Barcelona 2019. By now the status of 'The Special One' as superbreeder is undisputed. The investment really paid out fantastically!

■ WE HAVE COME FULL CIRCLE

Part of the transfer of 'The Special One' to Batenburg-Van De Merwe, was Cuffel and Sons testing a few 'New Laureaat' pigeons on their breeding loft. A grandson of 'New Laureaat' bred them the winner of 1. Int. Perpignan 2022!

'SUMERIAN FIGHTER'; 1. INT. BARCELONA 2017

THE LAST DANCE OF AN OLD WARRIOR

Many fanciers nostalgically long for Barcelona editions during which pigeons must battle under highly selective circumstances. Survival of the fittest; 'the winners of these races are the true champions' is an opinion often heard. The 2017 edition of Barcelona was such a race. And for sure; the winner was such a pigeon! NL10-3025405 'Sumerian Fighter' had already won 1. NPO Dax in his career and was basketed for his last dance ... eventually winning the International race against 17,026 birds.

'Sumerian Fighter' thanks his name to the old warriors in ancient times, without luxury living with the elements. A name fully justified; he sieged at the age of 7! Liberated July 3rd at 7.40 a.m. and clocked at 12.58 on July 4th - exactly 29 hours and 18 minutes later! In the whole of Belgium - up to 200 km shorter distance - not 1 single pigeon was clocked at that time! What a race of exhaustion it was. Temperatures far above 30 degrees Celsius, far too hot for mankind to walk in the sun; the pigeons had to deal with these circumstances nonetheless. The experience and persistence of 'Sumerian Fighter' really made the difference in this race. What a crown to an impressive career.

One of the first to call and congratulate its owner Leon Roks with this unique highlight was Hugo Batenburg. Hugo: "Leon and I have a mutual carpenter and I really appreciated the fantastic effort of his winner. When we visited Leon in the evening and handled 'Sumerian Fighter', we were extremely impressed.

A very strong cock and bred from the old Jan Aarden lines, that my father and I had also treasured for so many years. I was thrilled when Leon was willing to sell his superstar to us! With him we had 4 of the last 5 years International winners in our breeding team; what a luxury!"

NEVER WRITE OFF A PIGEON WITH A LIONHEART

Wounded and exhausted; that is how Freddy De Jaeger found his Barcelona-asset BE15-4014328 on Wednesday morning, 4 days after the liberation from International Barcelona 2017. Only his lionheart helped him return home under leaden conditions. Normally such a return means the end of a career, but not for this cock named 'Lloyd'. In 2018, again the Barcelona race was hard, but now 'Lloyd' armed himself against all obstacles and came to win 1. Int. Barcelona against 15,700 b.!

On holy ground ... Freddy De Jaeger is stationed in Knesselaere, not even a mile away from the spot where legendary 'Laureaat Barcelona' won

1. Int. Barcelona 1995 for the Gyselbrecht family. Under comparable circumstances; fair but heavy conditions with a temperature of 28 degrees and head winds blowing. Such a heroic siege could only be won by a true champion and so Nikolaas Gyselbrecht and Hugo Batenburg were eager to purchase him at the Team De Jaeger auction on PIPA. His arrival in Klaaswaal gave another quality injection to the Barcelona dream team.

"When I first handled 'Lloyd' I was especially impressed by his temperament," says Hugo. "It was a struggle to hold him in my hands, what a fighter! It must have been his spirit that made him return home wounded in 2017 and that made him

beat the total bunch a year later with a velocity of 952 mpm." 'Lloyd' had already won several top prizes, from 400 to 800 km. He is a one of a kind cross between extreme long distance (Meirlaen) and long distance (Vandenabeele) genes.

■ A CHINESE ADVENTURE

In the summer of 2019 the famous Chinese collector Kai Er visited Batenburg-Van De Merwe and was fascinated by 'Lloyd'. He was determined to add him to his impressive breeding team, with a/o the superstars 'Armando' Verschoot and 'New Kim' Van De Wouwer. Hugo sold this superstar to his friend and 'Lloyd' moved to China. The children bred from him at Batenburg-Van De Merwe have had an important share in various successes!

■ KRISTOF MORTELMANS
WINS 1. NAT. MARSEILLE 2021

One of the young Belgian champions astonished the world in 2016 by winning the 1. Nat. acebird extreme long distance KBDB with 'Red Ace'. This crack came to Batenburg-Van De Merwe and in return Kristof a/o took NL17-1262125 home, son of 'The Special One' x 'Daughter New Laureaat' ... a lucky hit; in 2021 the direct son 'Den Dave' won the tough Marseille edition in Belgium.

PHENOMENON 'JEF', FROM 1. ACEBIRD TO 1. INT. BARCELONA

The golden medal in the 2019 edition of International Barcelona was won by the exceptional pigeon BE16-2051063 'Jef' ... many fanciers would have transferred him to the breeding team after a wonderful 2018 season, when he was crowned 1. acebird Sans Peur Herent and 3. prov. acebird KBDB. However, not the Belgian brothers Jeroen and Stijn Rans; they prepared him for Barcelona 2019 and were paid back in gold.

"With the purchase of 'Jef' I think there was no risk of failure," Hugo Batenburg is convinced. "A pigeon with such a record, bred from such a successful family of pigeons, has winning blood in every fibre of the body. And again, the circumstances under which he won are of a category where only the strongest can win." Hugo means high temperatures and head winds with the first pigeons in France a little more than 24 hours after liberation time. 'Jef' won the race at a distance of 1083 km with a speed of 943 mpm and a lead of almost 2 hours on the runner-up!

Even though 'Jef' is a relatively new addition to the breeding team, his offspring directly showed their class. Only a few children were placed on the racing loft and already they won Top 100 National! Grandchildren have won several top prizes as well.

Hugo: "This great cock has a golden future ahead of him. Breeding success in such a short period is a strong indication of high quality. His new owner shall dominate in extreme long distance racing!"

THE WONDER HEN THAT SHOOK THE WORLD

"This could well be the successor of 'Kleine Jade' ..." Quite a label to put on the marvellous hen DV07236-18-41, however similarities are striking. Smart as 'Kleine Jade'... creating a path through the night like 'Kleine Jade ... and most important; winning 1. International Barcelona, just like 'Kleine Jade'.

The siege of 'Queen Of The Night' shall be one of the most imposing victories of International Barcelona. With temperatures up to 40 degrees Celsius in

France and not much less in Holland, Belgium and Germany. Luckily the winds were slowly blowing on the tail but racing under such a hot sun; this could only be a super hard edition. Expectations were that very few pigeons would make it before noon when suddenly at 5.14 a.m. the first pigeon was clocked in Germany by Alin Karscu at a distance of 1005 km. What a sensation; she must have crossed the night! When the hours passed, it became clear she must have been the only one capable of this effort ... the 2. International winner was clocked more than 9 hours later! What an incredible performance by the winner.

Hugo: "I was very curious about this special hen! Such a legendary

▲ Queen Of The Night paired to Jef with their new born youngsters

performance could only be achieved by a very special pigeon. And indeed, she is a beauty of a hen. With winning DNA; her pedigree shows famous Barcelona racers as 'Paula' (1. Nat. & 2. Int. Barcelona racer 2000-2004 at Menne) and 'Roger Barcelona' (1. Nat. Barcelona at Desbuquois). When I showed her to Jelle Jellema, he was thrilled; exactly the type of pigeon he always looks for. In 2022, we paired her to 'Jef'; what a beauties we bred from her."

Message for potential buyers

Although 'Queen Of The Night' is one of the finest hens in the auction, her productivity in laying eggs has been shifty. She came in the summer of 2020, was very homesick and laid her first eggs in 2021. - In 2021 she was productive for 7 rounds with a total of 14 eggs and 13 beautiful youngsters (1 infertile egg) - In 2022 she was productive in only 3 rounds with a total of 6 eggs and 4 beautiful youngsters (2 infertile eggs) Hugo let her rest for at least 4 weeks and paired her up again in late Summer 2022; until December 1st 2022 she did not lay a new egg. Therefore 'Queen Of The Night' shall be sold together with one of her direct children.

Nikolaas Gyselbrecht: "Hugo always wants the best for others"

I remember well when Hugo came to PIPA one day, it must have been about 10 years ago. PIPA had bought 'New Ace' of Wilson Dekens, this pigeon went to Hugo for 6 months and he came to show the first youngsters he bred from him. Hugo proudly grabbed the basket and showed me 3 youngsters, one really was an amazing pigeon. He asked me for my opinion and I told him I liked all three, but the one was really exceptional ... I expected Hugo to suggest taking it home for the breeding loft and selling the other 2 in auction, but his answer was 'let's offer this extraordinary one in auction, we must offer buyers the best we have'. I will always remember that. It is a good example of Hugo's character and how he likes to treat other pigeon fanciers; he always wants the best for others."

BREEDING CHAMPIONS AS MUTUAL PASSION

Hours and hours Carlo Gyselbrecht and Hugo Batenburg spend discussing ideas on breeding the ideal extreme long distance pigeon. Carlo made treasuring the famous 'Laureaat Barcelona' line, 1. Int. Barcelona 1995 for the Gyselbrecht family his life's work ... enriching this top DNA with modern champions resulted in a long list of references with Gyselbrecht offspring.

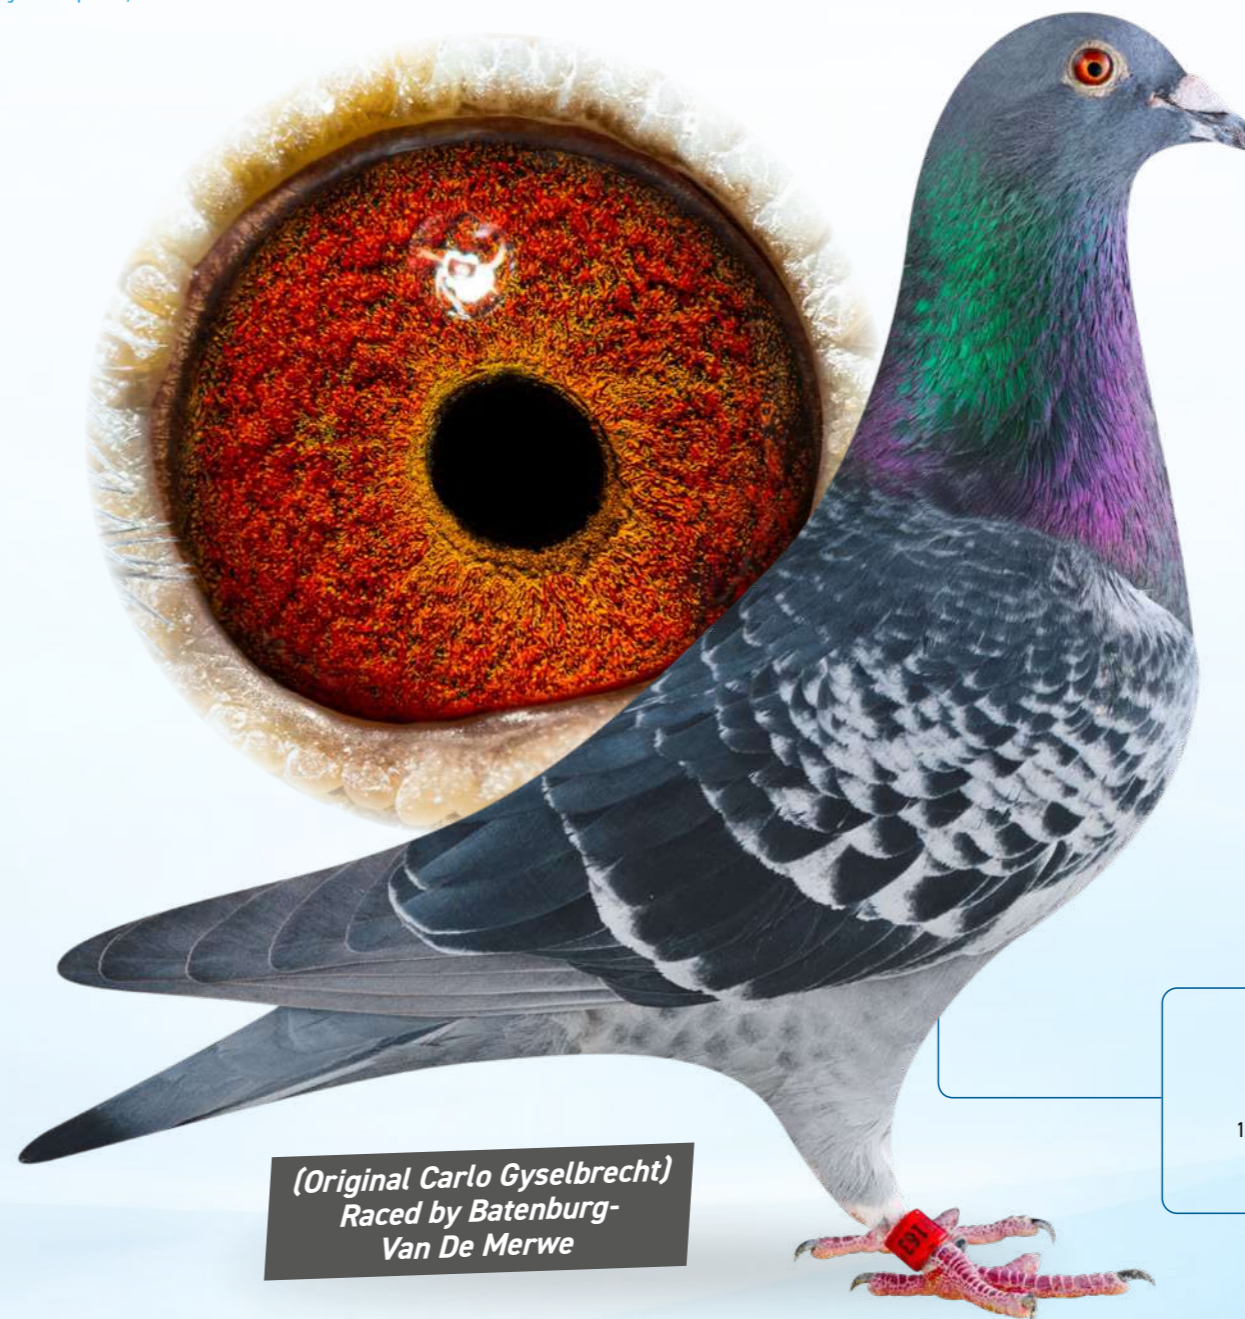

Naturally, also sublime descendants from 'New Laureaat', 'The Special One' and 'Jef' went for breeding to Knesselaere and co-breeding is done on frequently! Some products bred by Carlo Gyselbrecht were tested at Hugo and brought new successes. Like multiple top prize winner 'Carlo', but especially 'Petar', the spectacular winner of 1st National Narbonne in 2019! No wonder the respect for each other's performances in pigeon racing is enormous!
