Lucien and Johan Vandebroek (Zolder)

Lucien and Johan Vandebroek sell 20 exceptional pigeons, including "423", winner 1/1921 GGW and "Pluimpootje", 4 x 1st prize !!!

In addition, a select lot of summer youngsters from 2018, bred only from the best breeding couples, and intended for the further expansion of the breeding loft in Heusden-Zolder are offered. However, due to health reasons and the age of Lucien, the colony must of necessity be reduced. Super pigeons for flights of 100 to 600 km.

Lucien Vandebroek has played almost all of his life with the pigeons.  
Since 1962 at current address.

Always on the Vitesse and always well played.

Johan had my first pigeons sitting in the shed at his bompa, Gust, in Stationstraat.  
He started to be more interested in it since he built alongside my parents.

Since the turn of the century, races have also been successful on middle-distance flights, incidentally.  
In 2003 we became car winner with the young pigeons in Orleans and a year later provincial winner with the old pigeons on the same flight. From that period almost every year victories and places of honor on the GGW flights.

Game system is almost total widowhood, meaning that only the best old widowers stay at home, the rest is played. In the young pigeons, cocks and hens are separated from each other after the training flights. They are then played on the sliding door. Young pigeons are NOT raced on nest with us. The old and yearling pigeons that did not do well in the widowhood game will get a second chance in August in a nest. A last chance to extend their career.

### Breeds

As the pedigree of the pigeons offered shows, many pigeons are related to each other.  
The trunk is therefore mainly based on 4 pillars:

- Keirsmakers Louis Nijlen
- Lambeets Walter Aarschot
- Verhaegen Patricia Aarschot
- Heremans Leo Vorselaar

Lucien and Johan Vandebroek do not believe in a mix of pigeon breeds.

### Medical

Both breeders and all racing pigeons are treated against tricho once a year. The breeders at the start of the breeding period and racing pigeons at the start of the racing season.

Medical support is almost nil. "I know, nobody believes this," says Johan.

But we have been keeping this up for almost 20 years now and our pigeons are so hardened that they never get sick and you do not give healthy animals medication!
